

Information concerning the Sortera Ltd. Waste Carriers Licence and Environment Agency Permits/Licences

Sortera Ltd. has applied to the Environment Agency to change the operator's name on the Waste Carriers Licence CBDU90075.

The Environment Agency quotes two weeks for this change to be enacted. Because the Environment Agency cross-checks with Companies House to ensure that Sortera Ltd. is a duly registered company, we have had to hold off until Sortera Ltd. is live with Companies House before applying for the change of operator name.

Sortera Ltd has also applied to the Environment Agency to amend the following Permits and Licences:

CB3709HX (ex-GBN Services Ltd. Uxbridge site)

AP3695SX (ex-O'Donovan Waste Disposal Ltd. Tottenham (100a) site)

FB3609LQ (ex-GBN Services Ltd. Edmonton site)

LP3037WG (ex-O'Donovan Waste Disposal Ltd. Wembley site)

CB3132RU (ex-GBN Services Ltd. Rochford (Southend-on-Sea) site)

GTL/ODO001 (DL606) (ex-O'Donovan Waste Disposal Ltd. Tottenham (82a) site)

CB333DT (ex-GBN Services Ltd. Harlow site)

The Environment Agency has yet to advise on the expected time for this administrative change to take place.

Existing permits are available on our website at www.sortera.co.uk/documents. We will update the website when we have the amended permits available.

David Wolfenden

Regulatory and Compliance Director
