PRESS RELEASE

Sortera expands its footprint in the Finnish market

Sortera strengthens its position in the Finnish market with the acquisition of the assets associated with the brand Satasenlava from A-Group Vaihtolavat Oy.

A-Group Vaihtolavat Oy was established in 2005 and has 11 employees working under the Satasenlava brand. Satasenlava is a provider of waste transportation services for customers throughout the Greater Helsinki metropolitan area and serves a range of sectors including construction, renovation, demolition and many others. The assets of Satasenlava will be acquired through Sortera's Finnish company Vaihtolavacom.

"Satasenlava has successfully positioned themselves as a significant player within the Helsinki construction waste market. With a strong brand and a digitalised customer journey, Satasenlava have been able to continuously grow its business especially within the SME segment. It is a very good addition to our current offering in Helsinki, and we will now be able to offer our combined services to an even larger number of customers", says Hannu Poutiainen, MD for Vaihtolavacom.

"We are very happy to welcome Satasenlava to Sortera and to our local operations on the Finnish market. We are impressed by what the Satasenlava team has built over the years. With this acquisition, we are continuing our growth journey in the Finnish market initiated through the acquisition of Vaihtolavacom at the end of 2020", says Sebastian Wessman, CEO of Sortera.

Satasenlava will become part of Sortera as of 1st December 2021. This represents Sortera's fifteenth acquisition since the company was founded in 2006.
